

How can something that
feels like nothing work so well?
Introducing Playtex®
Slender Regular Tampons.

Regular Super

"Look closely at the new Playtex® tampon. It's the slimmest tampon Playtex has ever made, and the most comfortable. The famous Gentle Glide® applicator makes it feel like nothing going in. (It's far more comfortable than cardboard.) It's even easy to remove. Yet, tiny though it is, it's still Playtex. Their exclusive double-layer, crisscross design works so well! (I sure don't worry about embarrassing accidents.) Look for the new Playtex Slender Regular Tampons, deodorant or non-deodorant."

The comfort you want. The performance you need.
